Thank you for opening our Template.
To view this file correctly please ensure
that your overprint settings are switched **ON**.

To do this in Adobe Acrobat, left click on:
Edit then Preferences, Page Display and on
the drop down menu entitled "Use Overprint
Preview" select **Always**.

The file is structured using layers for each
element of artwork. These layers are
accessible by clicking on this  symbol in
Acrobat.

You can switch each individual layer **on** or **off**
by either clicking on the eye symbol or by
double clicking on the name of the layer itself.
